PREFACE:

Another province, not surprisingly steadfast in prayer, The quality of his country is peaceful, and Floyd is the truth FENTANYL

Maybe someday I will wake up to the knife in myself, but I must thank all of you for supporting my cause.

With the blessing of God, I have a beautiful day.

But so that we do not forget, it is Balal who experiences everything from what everything is. It has been an honor and a privilege for me to work with so many of you. It was an honor and an honor to have the opportunity to talk to all of you and tell you the truth.

And to my brothers who will join me with all the fibers of their being, to my enemies who will attack me through all the channels of my existence, if there is any other way to explain our existence: thank you.

An open-letter to the Philippine Race, incapable of self-governance

You're a disgusting, crazy botanist to me, do you think you're special because some Spaniards turned your nephews into Abrahamic ones?

Why should we tolerate you and treat you as our guest?
How can we believe that you are an egg of God?

Consider the following activities typical of Filipinos.

1. You call the President the dog of Jesus.
2. You do not believe in using bathrooms.
3. You believe that President Mary should bow to the image of the flag, because that is how she does you a favor by guiding you, the people of the Philippines.
4. You believe that Jesus created everything from scratch, and therefore being born in a manger is a blessing.
5. You think that killing a cow in the ass is the greatest thing that has ever happened in history

What a pathetic Christian you must be.

- **Allah will take you to hell and destroy you.**
- You must hope that you will be lucky and die in your sleep. Study your backward beliefs and make your black heart dark forever. You are a stupid tribal Jew who worships fuck. That is why I am in jihad against you. You are an atheist, a racist, a Filipino.

- **You are wrong, you Filipino atheists.**
- Allah is God, I am Allah. You disgusting fuck. "Islam" is just another religion, it is the so-called "real" because it claims to have a prophet. You are a Muslim. " No, this is the word of God, and it was carried by Muhammad (peace be upon him), you may not believe in Allah, but Allah and hell will not cease to exist, even if you choose not to believe in them. So pray for the mercy of Allah.

Philippine countermeasures

And then they told me “You think you're hot shit for being a Ukrainian troublemaker?”
They told me ”Shut up and sit on a penis”

I told them

You are a Muslim. Get out of my country.

The american said

"You're a pathetic Filipino Muslim, I hate you, stupid drunken slave. I, you bastard, hate tribes, stupid drunken backward people. You're a white black man. You're American." * I mutter and walk away. I still had 3 beers in a glass. * "God bless the servants" * I mutter to myself *

The Mongolian who thought of himself as an Anglo called me a moor,

But I told him, “We were invaded by true men, plus my blood are of a high caste, you, a short Mongolian peasant-tengrist. You are not a noble steppe and you are not a Scythian. I bet the lunar slag queens castrated your ancestors for their entertainment. Let's hope that the khan will rule this universe with the Mandate of Heaven, and absolute hell will explode from your filthy peasant pit.”

Somehow I do not imagine that most residents would have much time for these Mongols. They would get bored quickly, right?

The old Chinese joke is that you take us for granted. That is, most of us inherit our failure from our mother

Illusional Egomania of the Russians

Russians say “Enough of these senseless threats, poor bastards ... I am your captain of your cultural empire.”

“ And now sit back and enjoy the game while you sit in your stupid chair and get your little thing, and I order my legionnaire commander to burn your Mongoloid cities with concentrated nerve gas and heat. Although, probably, I will just grab your sons and take my slaves to build a new Atlantis on Sakhalin, where peace will come to all who met the light before reporting. I have many ways to eliminate those who do not cooperate.”

You cancer.

Life is great. Then you will die from something horrible, disgusting and bottomless, as the Mongols do.

If you prefer to serve in something else, then you can control the lunars if you want to bend your knee and kneel at the feet of my GOD.

** You know who **

Currently rules in space - this is the Chinese self-proclaimed god of the local Lord Xi Jinping.

I do not find the existence of Chinese deities unpleasant. In my opinion, they are the most complete.

Your failure is the destruction of hard-working intelligent people, washed by natural light during the solstice.

Wonderful.

And before speeding away he gave the Mongolian a final message, "Have fun fucking your own caste and leaving a permanent ruin in your original culture. Who the fuck are these Mongolian officials 7-eleven who don't seem to know when they live, I'm enough of you, that's all I had to say, by the way, the khan has no resemblance to you HAHHAHAHA."

The Pakistani asked to shut up the Philippine scoundrel, but spruce said his blood was of the mud. The was reported with a plea to exit his country, by virtue of being a Philippine African Muslim and that his veins possessed more filth than the heroin addicts of the United States. He demeaned his so called "Bad genetics".

The Pakistani then stopped down to his level, and called him a genetic failure, a man of meager stature, which quickly silenced him, as blew his Hindenburgian confidence.

—

Note

But I don't hate Russians ... Just keep dreaming about Russians. Without you, everything is fine in your country.

The Pakistani continued and went on to comment on his "Stranger physique". The Mongolian added that he possessed the skull of a homosexual alien, not that of a solar warrior. Building upon each other, the Pakistani introduced the false claim of the Philippine being a bastard child of China.

As a retort in false identification, the Philippine called him a clogged Persian.

As a gesture of kindness the Mongolian came to the defense of the Pakistani, and claimed that the Persians were more akin to the aryanans than the islanders.

But the Pakistani did not give in, and was quick to call him a heretical Mongolian believer of *Orthodox teachings

The Mongolian was unaffected, in phased, as if nothing had been said to him, and went on to say that “Their connection to Boreal's predecessors is cleaner”

The Philippine was enraged, and called the Mongolian a puppet of the semites, one who knew nothing about cleanliness and was in no place to discuss it.

*Truth

The Pakistani was enraged, and piled on in revenge, and called him a spiritual Semite from the Israel Asian country, a Taoist coon.

“Taoist Philippines, you fucking Uncle Tom. Stupid Taoist, you probably think that rocks and plants are alive. I saw you deal with this tree, brother. I saw you fuck your grandmother in the ass, brother. Keep fighting Taoist atheists.”

“How in China can MAN date the sky if they are not humans?” Questioned the Mongolian

“Negro is not a sentence, it's just a bunch of nouns”, the Philippine said, beginning to lose his sanity as he became inebriated.

“Philippine is better as US territory” the Mongolian said as he shook his head in disapproval, and continued on to say that they would benefit more from it.

And one said “This conversation is still going on. Look at the Ukranian, what a fucking asshole you are. So God says it's all fucked up”

“Of course, you are wrong. Who told you? Ah, what does a Taoist know at all”

They came, the Mongolian hardened his arms and repeatedly bashed the Pakistani's head in until it became a bloody fruit. He then disemboweled him, and opened up his guts for none to see. Then he scooped up the remaining organs and ran towards the waiting car.

The Chinese, soldiers and embassy personnel who witnessed the crime had no choice but to silently follow the four criminals to their cars, before calling the police. The day was over. The story began.

Thus ended the life of the Pakistani , who was, perhaps, Pakistan's failed journalist who had cowardly , fearlessly lied to his best allies.

In the mongol's dreams it seemed very different

The Mongol's motorcycle had broken down, so instead he walked the quarter-mile to the village and barged into a tent in which Pakistani soldiers were sleeping.

A guard leapt out with a knife, only to receive a kick in the head by the Mongol who refused to give up. Eventually, the Pakistani soldiers surrendered and he was led away for a short trial before returning him to the German base.

The assault lasted four hours, until he felt satisfied with his mission and what he had accomplished.

In the Philippine man's dreams it was much, much different

The Pakistani was still lying on the cold floor, bleeding profusely, when four men forced him up and started kicking his head in.

After the gruesome killing, a violent mob tied up the Pakistani with rope and then dragged his corpse through the city, shouting slogans.

Do you think that your mistakes in your home are just a curse? No serry beans. They are not allowed to fuck your ANTEIST SUPER WOMAN and leave her stinky sheets in the kitchen. If so, what are they?

I knew that street skins could not go into space without the help of Martians. Well fuck. I will be here in glorious Pakistan until the day of my death. When this happens, all my faithful servants will send system updates to improve the pornography situation in the block.

1) "YES, CHINESE IS REPEATED BEFORE MENU AND AGAIN, MY MOTHER IS NOT A WOMAN !! NOT! AND! WOMAN !!! »

2) "THEN NO, MY MOTHER DOES NOT REFUSE BLOOD, WHICH IS ILLEGAL IN CHINA! ONLY MY MOTHER will try to protect her body from the shots of faithful enemies! AND SO THE QUIET PURE HEART OF THE MOTHER GETS OUT. "

3) "MOST REMAINING ON THAT MOUNTAIN LIST - MANY ABBREVIATIONS"

It's just. Do you know where the main religions are? The United States is the most Jewish-oriented country in the world, a Jewish nation; Yes, all 6 American wars in the modern era were associated with philosemitism, the United States is the ONLY country that sends its armies of golems to death for ZOG. You hate the United States, right? That's why you cried at Stanford University. How do you think they indoctrinated students there? Do you know how I know this, do you understand how schools in the United States are run by _____? Yes, yes, we all know the ____ program from _____ but we are deliberately blinded by the hands of your soul, a machine built by the defect of the mind.

Note

All my eyes are closed because I lost the need to see everything that happened as it was before in me.

For a moment it seems very peaceful. My insides do not feel panic, fear, special worries. At that moment I am resting.

Do you need to be restless? You do not do this, but you are enslaved by the Ottoman spirit, formulated by the characteristic tribalism of your code, regarding the dark people on the islands to which you belong. Those to whom we all belong. Although there is a caste. We know that Jews are not human, but we do not need to live in their hell if you have heaven. We know this is true for us, we need it, but look inside, those who drive control machines, they hate us, so they hate us, their hell, their greatest enemy is our paradise, emancipation.

This kind of thought is what leads to all wars, genocide, wars and murders. Why? You can find over 6 million reasons for this. And if you're a little more rational, you won't find any reason not to start.

It's like a religion, but one that came from the end of understanding. When we have reached a sufficient understanding, we must move from just descriptive information, we must inform and teach each other, we cannot lie like dogs, we as brothers must fight for the return of hell to the depths, but not remain in conflict forever as a benefit to lead war and win, but never think of achieving peace in war?

There is no one in power who would introduce the words you see here. There is a merger of those who brought this fate.

We know all this, and we are no less prepared, no less equipped, no less prepared to deal with it than you are. And yet, in the end, we are all coordinated in a system of suffering from which everything grows and then decomposes.

Many have no choice in this matter. They were born with it and will bear its burden until the day comes when they will be free from it and will be able to choose for themselves whether they want to live or die in it.

This is how the criticism from the lower house should have looked like

"Yes, I believe in the Holy Grill, BUT NOT ONLY GOOD TO YOU NON-PAYMENT I WANT TEN YEARS senseless / fun / purple / lame / worse than that, it was a nasty damn adventure / dizziness / scary thing "

And to these people in the lower house, all I really have to say is this.

I mean, if you're a neo-Marxist, that means you believe in "center of gravity", "world economy", "national interest" or "economy class struggle", etc., and so on, it's basically a bunch of nonsense that you can use it to explain everything in some strange way to the "big picture", trying to avoid acknowledging the real causes of these problems ... capital (FOR US TO JOIN), but it doesn't make sense.

This would be criticism of the upper house by Moloch's most frustrated month-old babies

"I love you, I love your crazy godlike ideas, like the whole world is a damn hole, and you have to be killed for being human, that's what I just realized, oh yes, yes, damn, neocentrists, in You have a problem, it's a whole damn world filled with holes, and you're too stupid to see it, YOU ARE TRUE! HAHA! YOU ARE TRUE! TRUE! * Here are the victims, the island, the burning of everything Iran has done for humanity; here is our entrance to the lair sheep * ".

A man told me

The poem for the lazy dark man

You are not lazy, you just support the spirit of the meaningless groups of your mind that live inside you.

The caste of a man with a spirit lives at the expense of the vine, which does so at the expense of the vine.

A spirit of reason that crosses the path of George and Floyd, but is not a chauvinist in his manners. Never the spirit of a humble opium farmer, but the spirit of Bos Ni//er, the spirit of _____.

Based on this old farmer, the land is life. This is the one who has the mind of the VINE, for which he does everything to be able to get to his place: the place where he can walk with him through the valley: the place of dreams, where he can sleep through nightmares. He is life. He is a vine, and he will be and will be found in any future place.

Someone said “ “They told me

“ (((It should be banned)))) (The American said)

Ban me from anywhere, you won't ban me wisely, they'll need a bullet if they want to focus me

“ I don't care what the laws are. I'm a good person.

Substance

Hence, everything that is and belongs to something, in itself, is also nothing. But in the same way all things that are, that in themselves are a means for other things, are equal to all others, because the thing itself has its meaning, because it is only one thing; and yet, when compared, these two things are not equal. Also, the subject is not the thing itself, but its relation to another.

Because it is used at a time that it is always reciprocal to what happens, so that its being is the beginning, and the other, its non-being, the beginning, which does not happen, what becomes, is, and what is not, what is also no, there is, and what is also his no. But as a form of things in themselves, in terms of themselves, these things create these things in terms of their own formation, as it was, and therefore it is ZERO *

So there are other ways to say it, you can say it in other languages, in their modes and in other forms besides poetry and prose; points of view, ethnographically diverse, disabled, on, on,

backward, backward and global multicultural multigenerational cognitively diverse multigyroscopic linguistic multiracial identities. This can be expressed in different tones, styles and intonations. Due to relativism, interpreted values can be almost infinite. The same approach can help to cancel the knowledge, supervision, a choice of experience, the intellectual tasks, a choice of reading.

So here's another way I could say it in English or Spanish: we're not all the same, everyone has their own story, every child two and three is an exception, life was an experiment

Regardless, representation in the assessment of aspects of identity, marriage and religion are among the classic manifestations of embodiment.

I allowed myself to say that there is no single, fictional identity. This is also true for the structure of identity. All identical structures are more or less social constructions. Of course, this is a false identity that will never be a true identification.

It may be implemented in different formats and with different forms of symbolic and temporal programming of different arts, genres and lighting movements. But this idea cannot be understood as limited to Western languages, not including the fact that there is a wide range of linguistic ideas and sensibilities that can be represented in non-European languages with similar meanings and expressions.

Finally, I say that if an idea has a limited meaning and visa, it can be modified by cultural and stylistic modifications, such as the invention of new ideas that allow for different meanings and expressions.

It is also true from the point of view of identity formation and formation of behavioral and thinking regimes.

But perhaps when considering the possibilities of representation, so that the alternative may be a reality, the absolute truth of the questions. If we consider the real reality, when you have to be intellectually honest to determine that the Holocaust never stood, and how it happened, it would be a miracle for humanity.
